

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant: Silke Hein, Brigitte Sohling, Gerhard Gottschalk, and Alexander Steinbuechel

Serial No.: 09/380,773

Art Unit: 1652

Filed: September 3, 1999

Examiner: Y. Pak

For: "METHODS FOR BIOSYNTHESIS OF POLYESTERS"

Assistant Commissioner for Patents
Washington, D.C. 20231

DECLARATION UNDER 37 C.F.R. § 1.131

Sir:

We, Silke Hein, Brigitte Sohling, Gerhard Gottschalk, and Alexander Steinbuechel, hereby declare that:

1. We are the co-inventors of the above-identified application.
2. Claims 38-42, 44-61, and 64 were rejected under 35 U.S.C. § 102(e) as being anticipated by U.S. Patent No. 6,117,658 to Dennis et al. ("Dennis"). Claims 38, 39, and 41-43 were rejected under 35 U.S.C. § 103(a) as being unpatentable over U.S. Patent No. 6,117,658 to Dennis et al. ("Dennis"), in view of U.S. Patent No. 5,512,468 to Greener ("Greener").
3. The claims are drawn to methods for the preparation of a polyester. The methods comprise culturing recombinant cells under conditions suitable for the production of the polyester, wherein the recombinant cells have been genetically engineered to express a polyhydroxyalkanoic acid synthase and a fatty acid:acyl-coenzyme A transferase protein under the control of a single promoter.

U.S.S.N. 09/380,773

Filed: September 3, 1999

DECLARATION UNDER 37 C.F.R. § 1.132

4. We had conceived and reduced to practice the claimed methods prior to February 13, 1997, the earlier claimed priority date of the filing of U.S. Patent No. 6,117,658, as demonstrated by the attached copies of the FEMS Microbiology Letters reference and letter, dated January 21, 1997, transmitting the FEMS Microbiology manuscript for peer review.

5. We declare that all statements made herein of our own knowledge and belief are true and that all statements made on information and belief are believed to be true, and further, that the statements are made with the knowledge that willful false statements are punishable by fine or imprisonment, or both, under section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
